Approve Multiple Batches

To approve multiple batches, complete the following steps:

1. Click the **Check Processing** tab.

2. Click **Batch Management**. The *Search Batch* page appears.

3. Select or enter the batch search conditions you would like view.

    Under **Batch Search Conditions**, *optional*
    *   Select the **OTC Endpoint** you want to **Close** a batch for by checking the box under the **Select** column

    Under **Created On Date**, *optional*
    *   Enter the **From** and **To** date range

! **Application Tip**

The **From** and **To Created On Date** must be entered in MM/DD/YYYY format.

! **Application Tip**

The **Created On Date** range cannot exceed 30 days. Additionally, if more than a 1,000 batches are created within 30 days, then only the most recent 1,000 batches appear.

! **Application Tip**

If you run a search *with* the default **From** and **To Created On Date** range values, the search results include the most recent 30 days of batches that you have access to view. If more than 1,000 batches are created within the 30 days, then only the most recent 1,000 batches appear.

! **Application Tip**

If you run a search without specifying any criteria (with the exception of the **Batch ID** field), the search results include the most recent 30 days of batches that you have access to view. If more than 1,000 batches are created within 30 days, then only the most recent 1,000 batches appear.

- Enter the **Batch ID**

> **Application Tip**
>
> If the only search criteria entered is a valid **Batch ID**, then only a single result appears regardless of other search criteria specified.

> **Application Tip**
>
> After a batch is approved, its **Status** changes from **Closed** to **Approved**, except under one of these two scenarios. First, if a batch has been designated for summary level classification and the batch classification is not balanced. Second, if a batch is designated to be classified at the summary level and it is a CARS/GWA reporter, and the batch is not classified or balanced. Under these two scenarios the batch status is **Closed**. After the batch is classified and balanced, the batch can be approved.
